SIS - Synthetic Rugby Turf

Rugger

features:

- The top of the range polyethylene monofilament yarn
- Two tone yarn for excellent natural appearance
- Yarn profile for optimum pile recovery and resilience
- Glass fibre reinforced backing for increased durability
- Tested with shockpad to IRB Regulation 22
- High face weight for excellent appearance, coverage and playing characteristics
- The very latest in extrusion technology and high grade polymers
- Special additives for increased softness and player comfort
- Proven durability and long lasting playing characteristics even after intensive use
- Easier to maintain than traditional fibrillated surfaces
- Excellent references at Newcastle Falcons RFC and Durham University
