SIS - Synthetic Rugby Turf

Scrummager

features:

- A polyethylene fibrillated yarn with the appearance and features of a monofilament
- Utilises the very latest extrusion and polymer technology
- Minimal yarn splitting leading to vastly improved durability for long lasting playing characteristics
- Reduced rubber infill 'splash' for improved player safety
- Glass fibre reinforced backing for increased durability
- Tested with shockpad to IRB Regulation 22
- Good yarn recovery and resilience
- Excellent softness for unrivalled player comfort
- Superior tuft lock for optimum product integrity
- Excellent references at Nottingham University and Burnage RFC
