## SIS - Synthetic Football Turf

### Superior

#### features:

- A polyethylene fibrillated yarn with the appearance and features of a monofilament
- Utilises the very latest extrusion and polymer technology
- Minimal yarn splitting leading to vastly improved durability for long lasting playing characteristics
- Ideal for 5 a-Side pitches
- Tested to 50,000 Lisport cycles for proven performance
- Good yarn recovery and resilience with improved ball roll
- Excellent softness for unrivalled player comfort
- Superior tuft lock for optimum product integrity
- Good appearance and coverage of infill
- Range of pile heights available to accommodate a range of sports and specifications
- Excellent references at Powerleague 5 a-Side football centres and PlayFootball 5 a-Side football centres
